

# SolidWorks® Student Edition Installation Instructions

**Note:** Before beginning the installation process, please be sure to close out of all SolidWorks programs currently open on your computer.

1. **Insert DVD.**
2. When DVD is inserted, The “Welcome to the SolidWorks Installation Manager” window will appear; make sure **Individual (on this computer)** is selected. **Click Next.**

3. **Enter your 24 digit serial number.** **Click Next.**

*Note: After you click Next, a screen will appear indicating that it is searching for internet and checking serial number.*

4. Once “Connecting to SolidWorks” is complete, a Summary page will appear. It will display the products that are about to be installed and will provide a location to where the products will be installed. We recommend not changing this location. **Click Install Now** to continue.

5. **Installation is Complete! Make a selection** regarding the SolidWorks Customer Experience Program (we recommend participating, as the usage data help us in development), then **click Finish**.

**YOU CAN NOW RUN SOLIDWORKS STUDENT EDITION!**
